Bathrooms: Six Creative Ideas *Quick Tips For Homeowners*

Bathroom Remodels

Have a bathroom that needs updating? Tired of the same old, same old? There are several things you can do to change things up a bit in a

bathroom. Here are some creative ideas to rev up your imagination.

Designing With Grout

If you have a favorite tile in your bath that has worn like iron and you don't really want to change it, consider the grout. The grout between the tiles doesn't have to be an afterthought. In fact, it can be a design feature that harmonizes with the overall. By choosing a contrasting color that adds to the design or draws attention to itself may add flair. Likewise, a grout color that matches your tile can blend so well that the look you create is more continuous. Even with new tile this is a great idea!

Look At The Lighting

Lighting definitely creates a look and feel. The fixtures you choose are only part of the equation. Another part is the amount and type of light output from the fixture. A well-lit bathroom always creates a bright and clean feel. On the other hand, if you are a romantic, you may want a softer lighting scheme. Whatever your tastes,

remember, lighting contributes to the look, feel and mood of the room.

Mix & Match Colors

Shades of gray have been strong in recent times and will probably continue into 2016. Gray is timeless and neutral. Those gray shades can be found in tile, glass, natural stone and more. But your personality may yearn for more color and accents. Do one of the walls in a nice bright accent color. Or consider a multi-colored shower backsplash in a contrasting color.

Increase Your Shower Size

As closets have grown, so have showers. The challenge of remodeling an existing bathroom is to work with the available space. Large showers means less space for other

things. Some homeowners are opting for larger showers and no tub. Large showers often require floor to ceiling and wall to wall waterproofing, usually achieved through beautiful tile selections.

Stand Alone Tubs

On the other hand, if you love the luxury of a bubble bath, a stand-alone tub may be the ticket. They come in a variety of shapes, sizes, styles, colors and materials. Free standing soakers generally require more space. Their popularity has contributed to lots of available options. It might be something you want to look into.

That Fabulous Floor

A unique floor design can become the main focus of your bathroom. Today, there are so many options in tiles you can pretty much design your own custom look. With just a little help and guidance, tile gives you the freedom to mix and match colors and styles to create a personalized pattern you
